Instructions:

The design files are in the folders as listed below (i.e., if you use .pes format, the 15 .pes files will be in the folder named 1007-pes). You can access the design files directly from the cd through your embroidery software or, if you prefer, you can copy the files from the cd to a floppy disk or to your hard drive, using either Windows Explorer or My Computer.

NOTE: If you make any changes to any of the files, you will not be able to save it on the cd. You will need to save the revised design to a floppy disk or a folder on your hard drive.

Please be aware that the designs may not appear in their correct colors when you open/import them into your software package. The color chart in your package shows the correct color order and color name. It is advised that you stitch out the designs in the same color order as listed on the color chart.

Note: The designs in this package were digitized for their original sizes and may not stitch out correctly if they are altered in any manner. It is highly recommended that you stitch a sample of each design before stitching on your finished product. My samples were stitched on muslin, using 40 wt. Sulky thread and one layer of medium wt. cut-away stabilizer (which I hooped with the muslin).

I have found a very nice 60 wt. thread for stitching the outlines in my designs. It is made by Madeira. The spool says "Classic 60, Viscose 1500m." You can order it from www.madeirausa.com. The item # is 915S-1000 Classic #60

Packages are non-refundable. Damaged CD's can be returned for identical collections only. Every effort was made to ensure the CD is error-free. If, for some reason, the CD cannot be read or is defective, please contact me immediately and a replacement CD will be sent to you.
